MANUFACTURERS OF CERAMIC COLORS

### **Material Safety Data Sheet**

Product Number: 6471

SECTION 1: Manufacturer Identification

Mason Color Works, Inc. 250 East 2nd Street/P.O. Box 76 East Liverpool, OH 43920-5076 Date Prepared: May 2003 Revision Date: June 2013

(330) 385-4400

Fax: (330) 385-4488

Phone:

HMIS Classification:

Health	2*
Flammability	0
Reactivity	0
Personal Protection	See Section 6

\*Indicates possible chronic health effects.

# SECTION 2: Identification of Product

 $\label{eq:chemical Family: Inorganic} Product Names: Old Gold 6471 \\ Chemical Abstract Number(CAS) \ 68186-93-6, \ 68186-88-9, \ 68186-95-8 \\ Chemical Name: Chrome Iron Zinc Tin Vanadium Yellow \\ Chemical Formula: (Zr,V)SiO_4 + (Sn,V)O_2 + (Zn,Fe)(Fe,Cr)_2O_4 \\ \end{array}$ 

SECTION 3 & 4: Hazardous ingredients Identity/Information and Overexposure Symptoms				
	ACGIH-TLVs	OSHA PELs	NOISHA RELs	
Alumina Oxide (Al <sub>2</sub> ,O <sub>3</sub> )	10 mg/mg <sup>3</sup> (total)	15 mg/m <sup>3</sup> (total)	N/A	
Cas # 1344-28-1		5 mg/m <sup>3</sup> (respirable)		

ACGIH: The value for particulate matter containing no asbestos and 1 % crystalline silica.

#### SYMPTOMS OF OVEREXPOSURE:

Inhalation: Acute may cause coughing and shortness of breath. Chronic may adversely effect
breathing capacity.

Eye Contact: Direct contact may cause irritation.

Skin contact: May cause abrasions.

Ingestion: May cause irritation

	ACGIH-TLVs	OSHA PELs	NOISHA RELS	
Chrome Oxide (Cr2O3)	0.5 mg/m <sup>3</sup>	0.5 mg/m <sup>3</sup>	0.5 mg/m <sup>3</sup>	

Cas # 1308-38-9

ACGIH: Not classifiable as a human carcinogen: Inadequate data on which to classify the agent in terms of carcinogencity in humans/animals.

### SYMPTOMS OF OVEREXPOSURE:

**Inhalation:** Repeated prolonged exposure to trivalent compounds may cause delayed effects involving the respiratory system.

**Eye Contact:** Mechanical irritation to the eye may occur such as watering, reddening do to exposure to fines.

	ACGIH-TLVs	OSHA PELs	NOISHA RELS	
Cobalt Oxide (Co <sub>3</sub> O <sub>4</sub> )	0.02 mg/m <sup>3</sup>	0.5 mg/m <sup>3</sup>	N/A	
Caa # 1208 06 1				

Cas # 1308-06-1

ACGIH: Animal carcinogen: Agent is carcinogenic in experimental animals at dose levels, by route(s) of administration at site, or histologic type, or by mechanism considered relevant to workers exposure. Available epidemiologis studies do not confirm an increased risk of cancer in humans except under common levels of exposure.

## SYMPTOMS OF OVEREXPOSURE:

**Inhalation:** Prolonged inhalation of dust or metal dust, and fume or mist containing cobalt may cause serious respiratory illness. May cause an irritation of respiratory organs of sensitive persons resulting in obstruction of airways with shortness of breath.

Eye Contact: May cause serious eye irritation.

Skin Contact: Prolonged exposure may produce irritation

**Ingestion:** Large amounts may cause irritation of the gastrointestinal tract, nausea, vomiting and diarrhea.

	ACGIH-TLVs	OSHA PELs	NOISHA RELS
Iron Oxide (Fe2O3)	5 mg/m³	10 mg/m <sup>3</sup>	5 mg/m³
Cas # 1309-37-1			

ACGIH: Not classifiable as a human carcinogen: Inadequate data on which to classify the agent in terms of its carcinogencity in humans/animals. The value is for a particulate matter containing no asbestos and 1% crystalline silica.

SYMPTOMS OF OVEREXPOSURE:

Inhalation: Repeated and prolonged exposure may cause beginnings Pneumoconiosis called Sideordsis.
Eye Contact: May cause irritation.
Skin Contact: May cause mechanical skin irritation.
Ingestion: Expected to be non-toxic.

	ACGIH-TLVs	OSHA PELs	NOISHA RELS	
Silica, Crystalline (SiO2) Cas # 14808-60-7	0.1 mg/m <sup>3</sup>	10 mg/m <sup>3</sup>	0.05 mg/m³	
		SiO <sub>2</sub> + 2		

## SYMPTOMS OF OVEREXPOSURE:

### Inhalation:

a) Prolonged exposure to respirable crystalline silica (quartz) can cause Silicosis, a fibrosis (scarring) of the lungs. Silicosis may be progressive; it may lead to disability and death. Silicosis increases risk of Tuberculosis.

b) Inhaled from occupational sources is classified as carcinogenic to humans. (cancer)c) There is evidence that exposure to respirable crystalline silica or that the disease

Silicosis is associated with increased incidence of Sceroderma, an auto-immune

disorder manifested by fibrosis (scarring) of the skin and internal organs.

d) Thjere are several studies suggesting that exposure to respirable silica or that the disease Silicosis is associated with the increased incidence of kidney disorders.

(Nephrotoxicity)

**Eye Contact:** May cause abrasions of the cornea. **Skin Contact:** Not applicable

**Ingestion:** Not applicable

<u>Inhalation:</u> Dust from this product may cause irritation of the respiratory system. Overexposure may cause lung damage. <u>Ingestion:</u> Large amounts may cause irritation of the gastrointestinal tract, nausea,

800-452-4862

vomiting and diarrhea. <u>Skin & Eye:</u> Nuisance dust, prolonged or repeated may cause irritation.

### SECTION 6: Special Protection Information

Respiratory Protection: Use only NIOSHA/OSHA approved respiratory protection with adequate ventilation; avoid breathing dust. Do not exceed Occupational Exposure Limit. Wash thoroughly after handling. No food or beverage should be consumed in work area. Personal Protective Equip: Wear appropriate gloves and goggles to avoid skin and eye contact. Safety showers and eye statioins must be present in work stations. Ventilation: Use local exhaust or mechanical such as a dust collector to maintain dust levels below Occupational Exposure Limits.

## **SECTION 7:** Physical and Chemical Characteristics

Boiling Point: N/A Solubility in water: trace Vapor Pressure (mmHg): N/A Vapor Density (air=1): N/A Appearance:

Odor: Odorless Specific Gravity (water=1): N/A Evaporation rate: None % Volatile by volume: None

# SECTION 8: Reactivity Data

<u>Stability:</u> Stable <u>Hazardous Polymerization</u>: will not occur <u>Incompatibility</u>: None <u>Hazard Decomposition of product:</u> N/A

## SECTION 9: Fire and Explosive Data Flash point: N/A

Flammable Limits:

<u>Unusual Fire and Explosion Hazard</u>: None expected. <u>Extinguishing Media</u>: Carbon Dioside, dry chemical or water <u>Special Fire Fighting Procedures</u>: Wear self contained breathing apparatus when large quantities involved.

#### SECTION 10: Spill or Leak Procedures

Contain spillage and scoop or vacuum. Avoid making dust, put in appropriate container for disposal. Waste disposal method in accordance with Federal, State and Local Laws.

This product is a blend of various metal oxides, salts and some compounds which are interfused by high calcinations to form the finished product. Section 3, Hazardous ingredients Identity/Information, and Section 4, Symptoms of Overexposure, pertain to individual components. Section 5 through Section 10 are in reference to the finished product.

\*\*\*\*\*\* Attention all Retailers of Mason Stains

ALL retailers of this product are REQUIRED by law to supply their customers with a copy of

800-452-4862

material safety data sheet with initial purchase.

## \*\*\*SARA 313

This product contains certain oxides and compounds which are subject to reporting requirements of Superfund Amendment and Reauthorization Act (**SARA**) of 1986, Section 313 of the Emergency Planning and Community Right to Know Act and of 40 CRF, Part 372.

The information contained in this MSDS must be provided to every employee who is exposed to this product in any way. We recommend the user reads and understands the contents herein before using this material.

PLEASE KEEP ON FILE FOR FUTURE REFERENCE. DO NOT THROW AWAY! MSDS'S ARE REQUIRED FOR FIRST SHIPMENT, AND WILL BE SENT AGAIN WHEN REVISED UPON YOUR NEXT ORDER OF PRODUCT OR BY REQUEST.
